24 February 1969

MEMORANDUM FOR: Deputy for Operations, OSA

SUBJECT: [REDACTED] Activity Report
January 1969

1. Following are comments on January 1969 [REDACTED]
[REDACTED] Activity Report:

a. Reference, Part I, paragraph C2a. One mission pilot should be included.

b. Reference, Part II, paragraph E. One operational sortie was reported on Article 057. This was the Headquarters directed simulated operational mission flown on 7 January.

c. Reference, Part II, paragraph F. Operational flying hours scheduled and flown are entered for Article 057. Again this was the 7 January simulated operational mission.

2. Operational missions are defined as those sorties directed by Project Headquarters that are conducted as overflights over denied areas. To clarify station commander reports, Project Headquarters nonoperational directed missions such as simulated operational missions, SCOPE SAINT, etc., should be reported as "Headquarters directed nonoperational". Although, there is no line item for the above in PHD 50-10-7, the commander has been given the option of format changes that apply. Ferry missions would be reported separately as already provided in the format.

3. Remainder of report noted.
